Principal's Message

Welcome to Port Hope High School. PHHS is a composite secondary school that has established a wide range of courses and programs that meet student educational pathways. We are twinned with Dr. MS Hawkins Senior Public School enabling our grade 7 and 8 students an easy transition to secondary school. Educational planning for our students begins in grade 7 and moves to graduation at secondary.

As a fully composite secondary school, PHHS has programs designed to meet student interest and need from Academic , Extended French, Alternative Education, Special Education, Enrichment, Cooperative Education and a diverse Technical program leading to four Specialist High Skills Major (SHSM) in the Environment, Hospitality and Tourism, Manufacturing and Transportation.

The character of our school community is reflected in our school's leadership in Community, Outreach and Engagement activities. Students and staff have built a school in Sierra Leone, wells in India, supported students in Malawi, Uganda and HIV orphans in Tanzania. PHHS is a leader in global outreach in our school community.

PHHS school staff are leaders in SMART Board technology and its applications in enhanced student learning and achievement. All staff are accessible through our school's web site - <http://www.phhs.ca/> Our school offers a wide variety of leadership opportunities for students through our Student Government, Link Crew and the many teams and clubs...
